

AGENDA

(subject to change)

DAY ONE: 5 NOVEMBER

REGISTRATION (8:30 – 9:30)

(breakfast, tea and coffee available)

SESSION ONE

9:30-11:00

Plenary session

(Main Hall)

9:30

Welcome

Roger Marsh OBE – Chair, NP11

9:45

Achieving Net Zero - the need for greener energy & cleaner growth

Although climate change is a global problem, many its solutions need to be implemented at a local level. Here, we hear how we might reach the Government's 2050 Net Zero target, why it is so necessary to take action and the steps necessary for the North to grow economically whilst also lowering emissions.

Professor Piers Forster – Climate Scientist, UK Committee on Climate Change

10:00

Launch of the NP11 Energy & Clean Growth report

This report, commissioned by the NP11 and compiled by KPMG, summarises the low carbon energy opportunities that are being pursued by the eleven Northern LEPs and draws out the areas where coordinated action from the NP11 can deliver low carbon energy growth to lower emissions, grow the economy and create jobs.

Delegates will hear a contextual introduction on the importance of action and a summary of the key findings of the report, followed by a panel discussion featuring leading stakeholders.

Chair: **Roger Marsh OBE** - Chair, NP11

Speakers:

- **Piers Forster** – UK Committee on Climate Change
- **Carl Ennis** - incoming Chief Executive, Siemens UK & Ireland
- **Brent Cheshire** - Chair, Mersey Tidal Commission
- **Duncan Michie** – Director, Utilities, KPMG
- **Lord Haskins of Skidby** - Chair, Humber LEP

REFRESHMENT BREAK (11:00-11:30)

Teas, coffees & snacks available

SESSION TWO

11:30-12:30

Plenary session
(Main Hall)

CCUS Zone
sponsored by DRAX

11:30

Tackling the North's emissions via Carbon Capture, Usage & Storage

This session considers the role of Carbon Capture, Usage & Storage in seeking to ensure a net zero carbon future by tackling the impact of high emitting sectors as well as interacting with other technologies such as hydrogen. Each Northern 'cluster' will be given the opportunity to present their specific projects, before joining a panel to discuss the wider policy challenges and areas for collaboration.

Chair: **Andrew Hodgson** - Chair, North East LEP

Speakers:

- **Jason Shipstone** - Executive Vice President of Innovation, Drax
- **Jonathan Briggs** - Senior Adviser, il
- **Peter Whitton** - CCUS Task Force & Managing Director, Progressive Energy
- **Dr Tony Smith** - Commercial Strategy Manager, Peel Environmental & The North West Energy and Hydrogen Cluster
- **Professor Joe Howe** - Executive Director and Professor of the Thornton Energy Institute, University of Chester & Chairman of the North West Hydrogen Alliance

Maritime Zone (11:30-12:30)
(Fringe Room 1)

Decarbonising the marine, coastal & port environments

This session covers a wide range of issues that face maritime regions in terms of energy and decarbonisation. It will feature presentations and a panel discussion regarding decarbonising and increasing the sustainability of ports and marine transport, as well as taking advantage of natural water power through projects such as tidal energy.

Chair: **Mark O'Reilly** - Chief Executive, Team Humber Marine Alliance

Speakers:

- **Justin Atkin** - Port Representative for UK and Ireland, Port of Antwerp
- **Ben Murray** - Director, Maritime UK
- **Knut Marquart** - Global Ports Specialist, Siemens
- **Shaun Benzon** - Head of Tidal Project Development, Liverpool City Region
- **Jamie Gray** - Associate Director, Maritime & Aviation, Royal Haskoning DHV
- **Di Gilpin** - Chief Executive, Smart Green Shipping Alliance

LUNCH BREAK (12:30-13:30)

Lunch and refreshments available

SESSION THREE
13:30-14:30

Plenary session
(Main Hall)

Wind Power Zone

sponsored by Ørsted

13:30

Using wind energy to power the North

This session considers the central role of wind power as a source of renewable power in the North of England. Whilst primarily focusing on large scale offshore wind projects, it will also discuss on-shore and smaller scale opportunities. It will look at key policy issues including the recent Sector Deal and ask what more needs to be done and what other sectors can learn from its success.

Chair: **Andrew Hodgson** - Chair, North East LEP

Speakers:

- **Emma Toulson** - Lead Stakeholder Advisor, Ørsted
- **Tony Quinn** - Director of Testing and Validation, ORE Catapult
- **Ray Thompson** - Head of Business Development, Siemens Gamesa
- **Sophie Banham** - Leading Business Developer, Equinor

Heating Zone (13:30-14:30) (Fringe Room 1)

13:30

Geothermal and Mine Water heat

This session looks at how to use the natural heat stored underground, either within the geological formations or the former coal mines that scatter many regions in the north, to provide heating for local homes and businesses.

Chair: **Dr Mike Spence** - Science Director, UK Geoenergy Observatories

Speakers:

- **Jacki Bell** - Research Impact Officer, Durham Energy Institute, University of Durham
- **Jeremy Crooks** - Principal Innovations Manager, The Coal Authority
- **Dr Graham Ferrier** - Head of the Department of Geography, Geology and Environmental Science, University of Hull

14:00

Heating homes & businesses across the North

This session focuses on how best to provide heat to domestic and business properties both within urban and rural environments across the North of England. It will discuss issues such as district heat networks, how to address rural 'off-grid' properties and the potential for re-using waste industrial heat.

Speakers:

- **Tim Harwood** - Head of Programme Management, Northern Gas Networks
- **Dominic Bowers** - Director of Energy Solutions, WSP
- **Sarah Tennison** - Technology and Innovation Manager, Tees Valley Combined Authority
- **Jim Cardwell** - Head of Policy Development, Northern Powergrid

Fringe Zone (13:30-14:30) (Fringe Room 2)

13:30

Northern Energy Hub overview

This fringe is led by NP11 LEPs from across the North and explains the role of the NP11 Energy Hubs and their collaborative strategies.

Speaker:

- **Leanne Wilson** – Innovation & Technology Officer, Tees Valley Combined Authority

14:00

Humber Energy & Industrial Strategies

This fringe is led by Humber LEP and Siemens, and presents its recently published Local Industrial Strategy and its forthcoming Local Energy Strategy, as well as discussing its key energy & clean growth projects and setting out the wider role of Humber LEP.

SIEMENS
Ingenuity for life

Speakers:

- **Richard Kendall** – Executive Director, Strategic Policy & Business Development, Humber LEP
- **Victor Sellwood** – Energy Business Advisory, Siemens

SESSION FOUR

14:30-15:30

Plenary session (Main Hall)

Hydrogen Zone

sponsored by Equinor

14:30-15:00

Hydrogen at scale: for heat, power and industry

The Hydrogen Zone looks at the role of hydrogen production, storage, transportation and use across a range of platforms, and how it might benefit the North of England.

The first half hour of this Zone will discuss the role of hydrogen at scale for industrial use as well as for heating and other forms of power.

Chair: **Chris Beck** - Director of Business & Skills, Tees Valley Combined Authority

Speakers:

- **Dan Sadler** – Project Manager, Hydrogen and CCS, Equinor
- **Jenny Larfeldt** - Senior Combustion Expert, Siemens Industrial Turbomachinery AB
- **Lee Dowland** – Head of North West Operations, Cadent Gas
- **Keith Owen** - Head of Energy Strategy, Northern Gas Networks
- **Charles Purkess** - Director, ITM Power

15:00-15:30

Hydrogen for transport

The second half hour of the Hydrogen Zone looks more specifically at the role of this fuel for transport including fuel cell cars, buses and trains.

Chair: **Chris Beck** - Director of Business & Skills, Tees Valley Combined Authority

Speakers:

- **Henrik Solgaard Anderson** – Research & Development Manager, Equinor
- **Mark Knowles** - Head of Low Carbon, Liverpool City Region
- **Dr Richard Kemp-Harper** - Strategy Director, Arcola
- **Mike Muldoon** - Head of Business Development, Alstom
- **Mark Griffin** - Market Business Development Manager, BOC

Westminster Zone (14:30-15:30) (Fringe Room 1)

Session sponsored by PWC

What does the current political situation mean for the UK's green future?

This fringe attempts to answer the potentially unanswerable: what on earth is going on in Westminster? It brings experts from the business and policy world together to discuss what the current political landscape and ongoing uncertainties mean for environmental and energy policies, investment and our international climate change commitments.

Chair: **Philip Cox** – CEO, Cheshire & Warrington LEP

Speakers:

- **Adrian Del Maestro** – Director of Research & Head of Global Thought Leadership in Energy, PWC Strategy
- **Mark Sommerfeld** – Policy Manager, Renewable Energy Association
- **James Court** – Senior Advisor, Senior Advisor, Seahorse Environmental Communications

Fringe Zone (14:30-15:30) (Fringe Room 2)

14:30

Energy innovation in the North East

This fringe, facilitated by the North East LEP, will introduce the North East Energy Catalyst, a new partnership which unites the North East's leading energy innovation, demonstration and delivery capabilities. The Catalyst makes these capabilities available to the Northern Powerhouse and UK, and is seeking new collaborations to drive growth and showcase solutions to global energy challenges.

Speakers:

- **Andrew Clark** – Energy Programme Lead, North East LEP
- **Tony Quinn** – Director of Testing & Validation, ORE Catapult
- **Colin Herron** – Managing Director, Zero Carbon Futures

15:00

Net-zero carbon ambitions in Leeds City Region

This fringe, led and presented by Leeds City Region LEP, provides delegates with information on the priorities for achieving net-zero in this area.

REFRESHMENT BREAK (15:30 – 16:00)

Teas, coffees & snacks available

SESSION FIVE

16:00-17:00

Plenary session

(Main Hall)

Nuclear Power Zone

16:00

The role of nuclear power in the North's energy mix

This fringe assesses the role of the nuclear power industry within the northern economy and considers its future role in terms of the whole lifecycle from commissioning to decommissioning as well as the wider supply chain. It will analyse current policy including sector deals and white papers and look at the future for power stations and modular reactors.

Chair: **Jo Lappin** – Chief Executive, Cumbria LEP

Speakers:

- **Tom Greatrex** - Chief Executive, Nuclear Industry Association
- **Alan Woods** - Strategy & Business Director, Rolls Royce
- **Craig Lester** - Deputy Director, Advanced Nuclear Innovation, Department for Business, Energy and Industrial Strategy
- **Andy Scargill** – Vice President, Nuclear & Clean Energy, Jacobs

Energy Systems and Storage Zone (16:00-17:00)

(Fringe Room 1)

SIEMENS
Ingenuity for life

Session sponsored by Siemens

16:00

Integrated energy systems & energy storage

This session explores the potential to integrate multiple energy types and platforms in order to maximise efficiency whilst reducing waste and emissions. It will also discuss one of the major challenges for energy – how to transport and store it efficiently.

Chair: **Laura Brown** - Manager, National Centre for Energy Systems Integration

Speakers:

- **Carl Ennis** - incoming Chief Executive, Siemens UK & Ireland
- **Jim Cardwell** – Head of Policy Development, Northern Powergrid
- **Darren Cunningham** - Lead Executive UK, Phillips 66

Fringe Zone (16:00-17:00)

(Fringe Room 2)

Energy and decarbonisation in Tees Valley

This session is led and presented by Tees Valley Combined Authority and presents their strategies and key projects locally, and opportunities for investment and collaboration.

Fringe Zone (16:00-17:00)
(Fringe Room 3)

NP11 Energy & Clean Growth Strategy workshop

This workshop session follows on from the launch of the NP11 Energy & Clean Growth Strategy Report in the morning.

Run by report authors KPMG and NP11 LEP representatives, it offers the opportunity to feed back on the report, ask questions and challenge assumptions.

NETWORKING & EXHIBITION VIEWING (17:00)

CONFERENCE DRINKS RECEPTION (18:00 – 20:00)

Lexington Rooftop Bar (DoubleTree by Hilton)

Attendees must register in advance.

Sponsored by Marketing Humber

Marketing Humber
delivered by Bondholders

6 NOVEMBER

REGISTRATION (8:30 – 9:30)

(breakfast, tea and coffee available)

SESSION ONE

9:30-11:00

Plenary session

(Main Hall)

9:30

Welcome and introduction

Session One Chair: **Lord Haskins of Skidby** - Chair, Humber LEP

Using energy as a vehicle for economic growth and community benefit

This introductory talk looks at the role of energy and clean growth in the north, not just as an end in itself but also as a driver for economic growth. It takes a holistic view of the sector with practical examples and learnings from a range of technologies including hydrogen, energy storage and wind farms such as Hornsea One, the world's largest, capable of powering over a million UK homes with renewable electricity.

Duncan Clark - Programme Director for Hornsea Projects One and Two, Ørsted

10:00

Opportunities and challenges for energy in the North

The Energy Institute operates in over 120 countries and this session will draw on Louise's 25 years of international experience to provide a global perspective on unlocking the North's energy potential.

Louise Kingham OBE - Chief Executive, Energy Institute

10:30

The economic opportunities of energy

The session will discuss how to maximise the economic opportunities from the sector.

Speaker: **Nick Bridge** – Special Representative for Climate Change, Foreign and Commonwealth Office

REFRESHMENT BREAK (11:00-11:30)

Teas, coffees & snacks available

SESSION TWO

11:30-12:30

Plenary session

(Main Hall)

Skills Zone

sponsored by Phillips 66

11:30

Skills, education and diversity in the energy sector

This series of presentations and panel discussion will consider the challenges facing the energy sector in the north in identifying and securing the right skills set within the current and future workforce, in attracting and retaining talent, and in ensuring greater diversity.

Chair: **Christine Gaskell CBE** – Chair, Cheshire & Warrington LEP

Speakers:

- **Nina Stobart** – External Communications and Public Affairs Lead, Phillips 66
- **Dr Kirsty Clode** – Chair, Women into Manufacturing and Engineering
- **Chris Claydon** – Chief Executive, Engineering Construction Industry Training Board
- **Abbie Sampson** – Director of External Affairs, Energy UK and Board Member, Women in PR
- **Nick Kardahji** – Senior Policy Lead on Energy, Prospect

Breaking Down Barriers Zone (11:30-12:30)

(Fringe Room 1)

These sessions offer practical advice to SMEs and other businesses on accessing and working within parts of the energy industry which are typically difficult to break into.

Session sponsored by The Supply Chain Network

**The Supply
Chain Network**

11:30

Breaking into the nuclear power industry

Have you ever wondered what Sellafield is and how to do business with them? Emma-Jayne Gooch, Head of Supply Chain Development and Innovation will remove the mystery and explain how businesses from SME's to Multinational companies can find opportunities and win business with Sellafield Ltd.

Chair: **Dawn Hall** – Manager, Supply Chain Network

Speaker:

Emma-Jayne Gooch - Head of Supply Chain Development & Innovation, Sellafield

12:00

Breaking into the wind power industry

The Offshore Wind Growth Partnership (OWGP) is a programme that has recently launched following the Sector Deal with the sole aim of helping UK businesses to grow in the offshore wind supply chain. Claire Canning, OWGP Programme Manager will

give an overview of the programme and the exciting opportunities available to companies.

Chair: **Dawn Hall** - Manager, Supply Chain Network

Speaker:

Claire Canning - Offshore Wind Growth Partnership, Programme Manager, ORE Catapult

Environment Zone (11:30-12:30) (Fringe Room 2)

Session sponsored by Environment Agency

11:30

How we can protect and enhance our environment

This session examines the impact of climate change upon our environment and natural climate solutions - the role of the natural environment in decarbonisation, building climate resilience and reaching net zero GHG emissions.

Chair: **Oliver Harmar** – Yorkshire Area Director, Environment Agency

Speakers:

- **Nevil Muncaster** – Director of Asset Management, Yorkshire Water
- **David Renwick** – Area Director North, National Lottery Heritage Fund
- **Simon Pringle** – Green Economy Panel, Leeds City Region
- **Andy Parkinson** – Chief Executive, Humber Strength in Places & Chair, Marketing Humber

Growth Hub Zone (11:30-12:30) (Fringe Room 3)

Session sponsored by Humber Business Growth Hub
on behalf of the NP11 Growth Hub Network

11:30

Growth Hub advice for SMEs

This session will provide an overview of the priorities and policies of NP11's Growth Hubs to help build an environment where SMEs can thrive, including guidance on applying for funding opportunities. It will also examine why many SMEs start up but few scale up, and will show how the Humber Business Growth Hub's new Scale Up Business Development Programme can help established SME owners and managers scale their businesses.

This session is repeated later in the day for those who cannot attend at 11.30.

Speaker:

Jon Brunton - Growth Hub Manager, Humber LEP

LUNCH BREAK (12:30-13:30)

Lunch and refreshments available

SESSION THREE

13:30-14:30

Plenary session

(Main Hall)

Business Zone

sponsored by CBI

13:30

Energy, Innovation & Skills: The requirements for the transition to a low carbon economy

The UK economy is changing and the Government has legislated for a net-zero target by 2050, although many groups feel this is not fast enough. How we achieve these goals and deliver a successful transition to a low-carbon economy has yet to be decided. This session will discuss what political and business framework is required to enable innovation and a diverse range of skills to realise the full potential of a low-carbon economy.

Chair: **Philip Cox** – CEO, Cheshire & Warrington LEP

Speakers:

- **Matthew Fell** - UK Policy Director, CBI
- **Amy Jenkins** - Head of Clean Growth in the Industrial Strategy, Department for Business, Energy and Industrial Strategy
- **Richard Crossick** – UK Public Affairs Manager, Ørsted
- **Dave Laister** – Business Editor, Grimsby Telegraph

Low Carbon Transport Zone (13:30-14:30)

(Fringe Room 1)

Decarbonising public & private transport

Domestic transport was the only major sector of the UK energy system to see increasing emissions over the last carbon budget. This session will consider how emerging technologies can be rolled out and how policy changes can affect individual behaviour. It will assess the role for public and private vehicles with a range of fuel types including electric, hydrogen, LNG and biofuels.

Chair: **Chris Beck** – Director of Business & Skills, Tees Valley Combined Authority

Speakers:

- **Colin Herron** - Managing Director, Zero Carbon Futures
- **Helen Ellerton** - Policy Manager, West Yorkshire CA
- **Mike Lipscomb** - Lead Engineer - AET Project, Arriva Rail North
- **Julian Beach** – Business Development Director, Green Fuels
- **Rosslyn Colderley** – Director North England, Sustrans

Circular Economy Zone

(13:30-14:30)

(Fringe Room 2)

How a circular economy can benefit the energy industry

York, North Yorkshire and East Riding Local Enterprise Partnership will lead this workshop, which will focus on how we can apply circular economy principles to the energy sector to reduce greenhouse gas emissions, eliminate waste and improve resource efficiency.

Energy Skills Workshop (13:30-14:30) (Fringe Room 3)

Responding to employer need: A Humber case study

This session, which is organised by Humber LEP Energy Skills Campus, will provide local case studies on employer-driven requirements in education, skills and apprenticeships. It will look at how we can engage employers to share their skills needs with providers and how qualifications can be adapted to reflect those needs.

This session is repeated at 14:30-15:30 for those who can't attend at this time.

Chair: **Teresa Chalmers** – Executive Director, Employment & Skills, Humber LEP

Speakers:

- **James McIntosh** – Head of Skills, CATCH
- **Ian Rook** - Operations & Emergency Response Manager, Humber Offshore Training Association (HOTA)
- **Sallyann Garrard-Hughes** – Head of Skills Strategy, ECITB
- Representative from a **Local Further Educational Institution**
- Representative from a **Local SME**

SESSION FOUR 14:30-15:30

Plenary session (Main Hall)

International Trade Zone

Sponsored by the Department for International Trade

Department for
International Trade

14:30

The North as place to invest and export from

This session will examine the North's global potential and explore four key themes in a series of presentations followed by a moderated panel discussion:

- *The Research & Development asset base and how it can attract Foreign Direct Investment*
- *How interregional relationships can support trade and investment*
- *The role that large companies can play in supporting trade and investment*
- *How the Department for International Trade can support regional trade and investment*

Chair: **Philip Cox** – Chief Executive, Cheshire & Warrington LEP

Speakers:

- **Sophie Orthuber** - North Rhine Westphalia
- **Dr Mike Musil** – CEO, Exergy Energy, Tokyo

Innovation Zone (14:30-15:30) (Fringe Room 1)

Sponsored by ORE Catapult

How Innovation can power clean growth

The North is the home to cutting-edge technological development and leading partnerships between the academic and business world which have helped to deliver major projects. This session will hear from some of the shining examples of these partnerships in the North, and consider how innovation can be fostered and connected with government and industry.

Chair: **Kishor Tailor** – CEO, Humber LEP

Speakers:

- **Stuart Barnes** - Regional Manager – Humber, ORE Catapult
- **Pete Andrews** – Managing Director, Echo Bolt
- **Anthony Gordon** - Stay Ashore Programme Manager, GE Renewable Energy

Other panellists:

- **Will Swan** - Director, Energy House Laboratories
- **Andy Parkinson** – Chief Executive, Strength in Places & Chair, Marketing Humber
- **Louise Smith** – Director, Aura Renewable Energy

Climate Emergency Zone (14:30-15:30) (Fringe Room 2)

Practical advice for local authorities declaring a 'climate emergency'

More than 200 local authorities in the UK have declared a climate emergency. This session will hear from some of the leaders in best practice and provide practical advice to councillors and officers on setting a target date for going net zero and working towards it.

Chair: **Phil Brennan** – Head, APSE Energy

Speakers:

- **Cllr John Clare** – Cabinet Support Member for Economic Regeneration, Durham County Council
- **Chris Jones** - Researcher, Tyndall Centre for Climate Change Research, University of Manchester
- **Jonathan Ward** – Principle Energy Policy Officer, Nottingham City Council
- **Tom Knowland** – Head of Sustainable Energy & Climate Change, Leeds City Council

Energy Skills Workshop (14:30-15:30) (Fringe Room 3)

Responding to employer need: A Humber case study

This session, which is organised by Humber LEP Energy Skills Campus, will provide local case studies on employer-driven requirements in education, skills and apprenticeships. It will look at how we can engage employers to share their skills needs with providers and how qualifications can be adapted to reflect those needs.

This session is a repeat of the 13:30-14:30 for those who couldn't attend.

Chair: **Teresa Chalmers** – Executive Director, Employment & Skills, Humber LEP

Speakers:

- **James McIntosh** – Head of Skills, CATCH
- **Ian Rook** - Operations & Emergency Response Manager, Humber Offshore Training Association (HOTA)
- **Sallyann Garrard-Hughes** – Head of Skills Strategy, ECITB
- Representative from a **Local Further Educational Institution**
- Representative from a **Local SME**

REFRESHMENT BREAK (15:30 – 16:00)

Teas, coffees & snacks available

SESSION FIVE

16:00-17:00

Plenary session

(Main Hall)

Collaboration Zone

16:00

How the North can work better together

This session will close the Conference with an overview of the key issues raised and discussed over the two days and seek to reach conclusions as well as strategies for greater collaboration across the North in future.

Chair: **Christine Gaskell CBE** – Chair, Cheshire & Warrington LEP

Speakers:

- **Henri Murison** - Director, Northern Powerhouse Partnership
- **Lord Haskins** – Chair, Humber LEP
- **David Levene** – Strategic Coordinator, NP11
- **Philip Cox** – Chief Executive, Cheshire & Warrington LEP

Future Skills Zone (16:00-17:00)

(Fringe Room 1)

The impact of technological change on the energy industry

This session will examine the emerging technological changes that are shaping the future of the energy industry, including the likes of virtual and augmented reality, and will discuss the challenges raised within the ECITB paper 'Industry 4.0'.

Chair: **David Talbot** – Chief Executive, CATCH

Speakers:

- **Jas Shanker** – Head of Technology, ECITB
- **John Weir** – Talent & Skills, Aura, Hull University
- **Oliver Nicoll** – Chief Executive, VISR

Energy Hub Zone (16:00-17:00)

(Fringe Room 2)

Can business rates be used to incentivise energy efficiency improvements to business premises

The North East Yorkshire and Humber Energy Hub is co-ordinating a research project on whether business rates can be used to incentivise energy efficient premises. This will be an interactive workshop to gauge business interest and appetite for an incentive scheme.

Northern Growth Hub Workshop (16:00-17:00)

(Fringe Room 3)

Session sponsored by Humber Business Growth Hub
on behalf of the NP11 Growth Hub Network

Growth Hub advice for SMEs

This session will provide an overview of the priorities and policies of NP11's Growth Hubs to help build an environment where SMEs can thrive, including guidance on applying for funding opportunities. It will also examine why many SMEs start up but few scale up, and will show how the Humber Business Growth Hub's new Scale Up Business Development Programme can help established SME owners and managers scale their businesses.

This session is a repeat of the one earlier today, for those that could not attend.

Speaker:

Jon Brunton - Growth Hub Manager, Humber LEP

Plenary session (Main Hall)

17:00

Closing remarks

Lord Haskins of Skidby - Chair, Humber LEP

NETWORKING & EXHIBITION VIEWING (17:15)

GALA DINNER (by invitation only) (19:00 for 19:30)

Hull Minster
